Batch:43

Task1:portfolio website

Prompt:

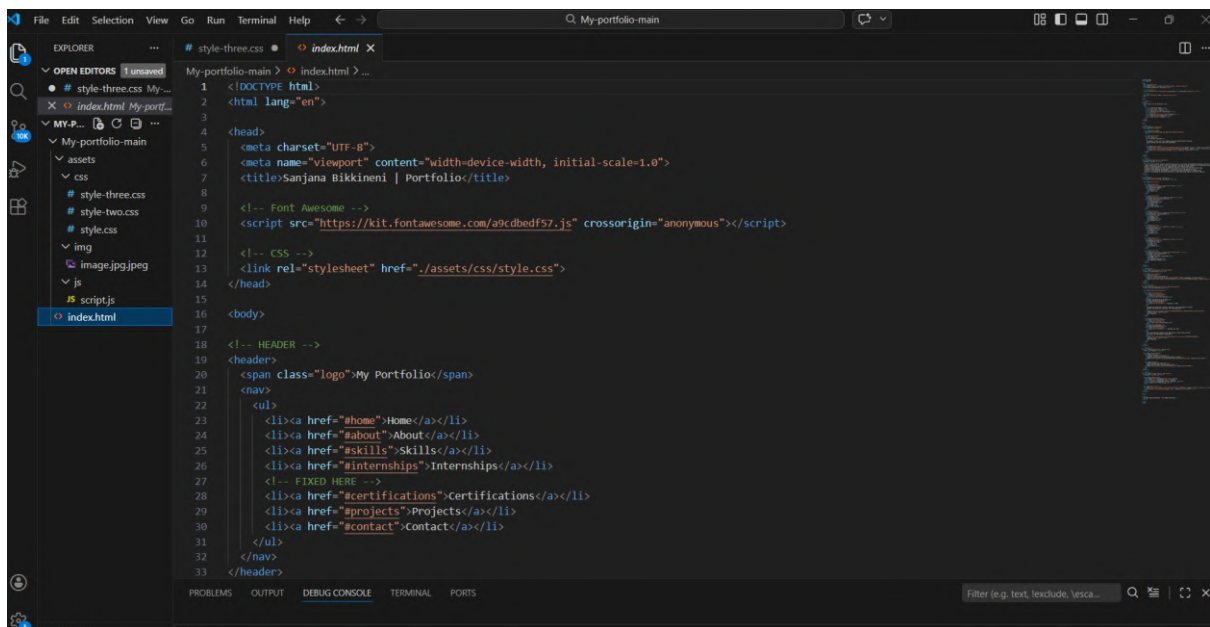

Create a modern personal portfolio website using HTML, CSS, and JavaScript.

Include sections for About Me, Projects, and Contact.

Use a clean color palette and suggest suitable typography.

Make the layout responsive using Flexbox and Grid.

Add smooth scrolling navigation for better user experience.

```

My-portfolio-main > assets > js > JS script.js > ...
1 document.addEventListener("click", function (event) {
2   if (event.target.hasAttribute("data-theme")) {
3     const themeFile = event.target.getAttribute("data-theme");
4     const themeButtons = document.querySelectorAll("[data-theme]");
5     themeButtons.forEach(btn => btn.classList.remove("active-theme"));
6     event.target.classList.add("active-theme");
7     document.getElementById("themeStylesheet").setAttribute("href", themeFile);
8   }
9 }
10 );
```

Output:

Observation:

The portfolio website was developed using HTML, CSS, and JavaScript with a clean and well-organized structure.

It includes clear sections for About Me, Projects, and Contact to improve navigation.

CSS was used to create a consistent color palette, typography, and responsive layout using Flexbox/Grid.

JavaScript was implemented to enable smooth scrolling navigation for a better user experience.

Overall, the website is simple, responsive, and effectively showcases my work.

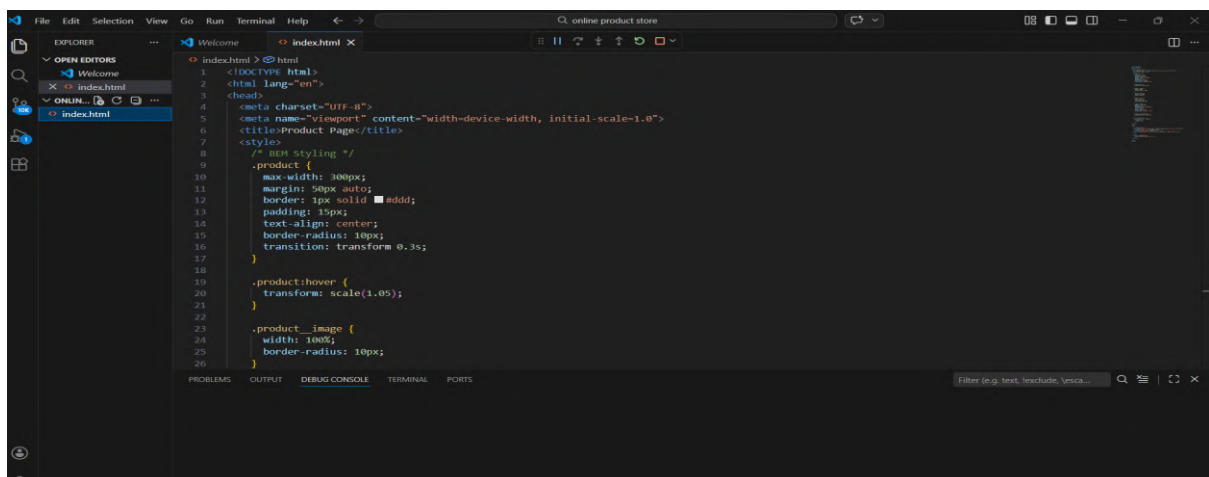

Task2: Online Store Product Page

Prompt

Design a responsive product page using HTML, CSS, and JavaScript displaying image, title, price, and an “Add to Cart” button.

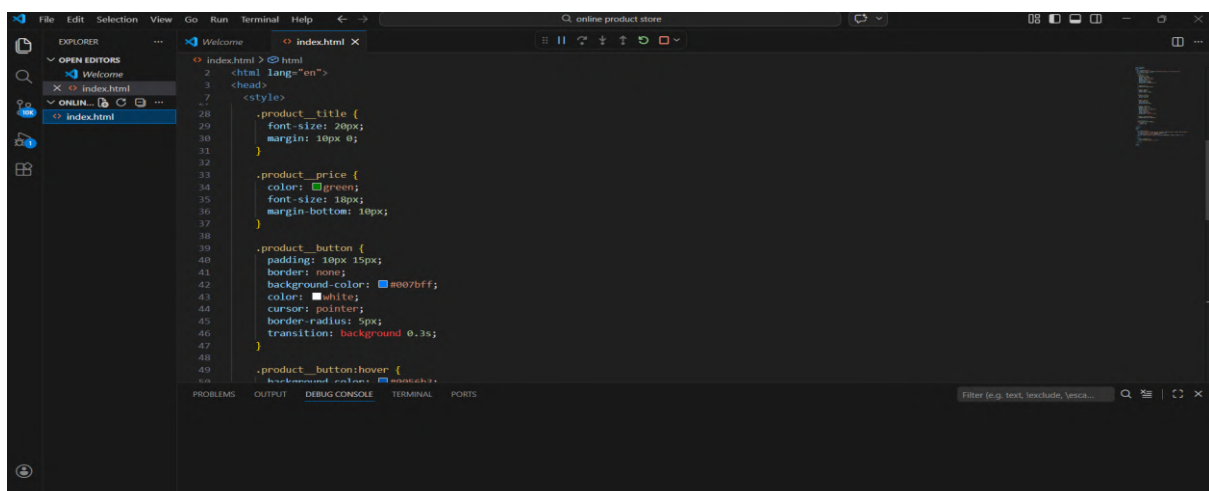

Use BEM methodology for structured and reusable CSS styling with hover effects.

Add JavaScript functionality to show an alert when the “Add to Cart” button is clicked.

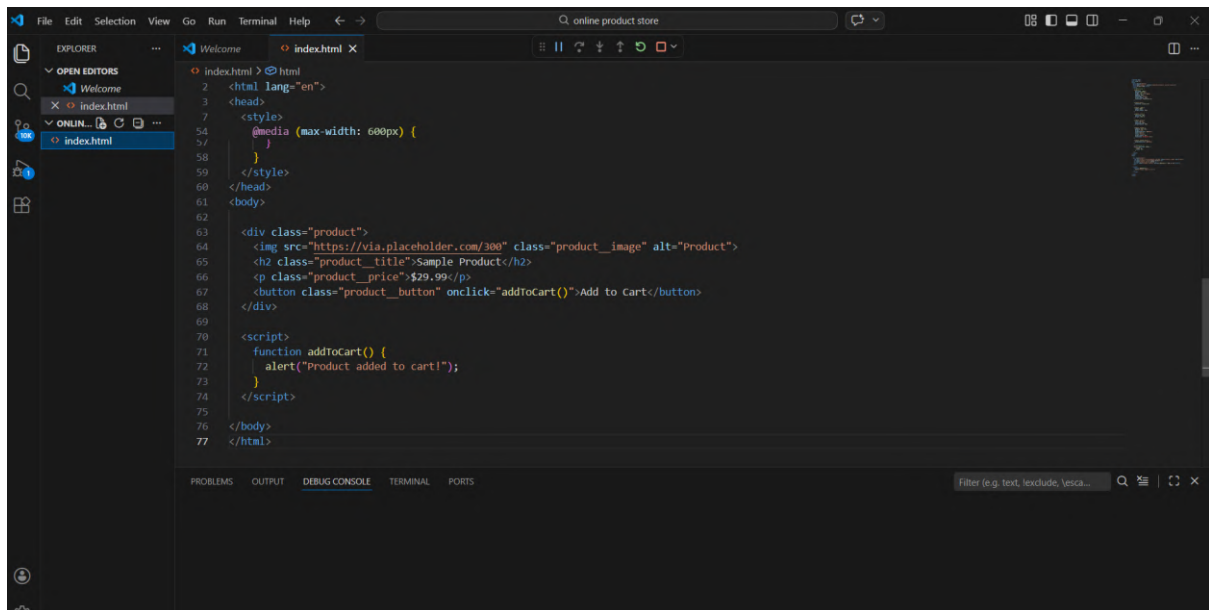

This screenshot shows the initial code in the VS Code editor. The Explorer panel on the left shows the file structure with 'index.html' selected. The main editor area displays the following code:

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4 <meta charset="UTF-8">
5 <meta name="viewport" content="width=device-width, initial-scale=1.0">
6 <title>Product Page</title>
7 <style>
8 /* BEM Styling */
9 .product {
10 max-width: 300px;
11 margin: 50px auto;
12 border: 1px solid #ddd;
13 padding: 15px;
14 text-align: center;
15 border-radius: 10px;
16 transition: transform 0.3s;
17 }
18
19 .product:hover {
20 transform: scale(1.05);
21 }
22
23 .product_image {
24 width: 100px;
25 border-radius: 10px;
26 }
```

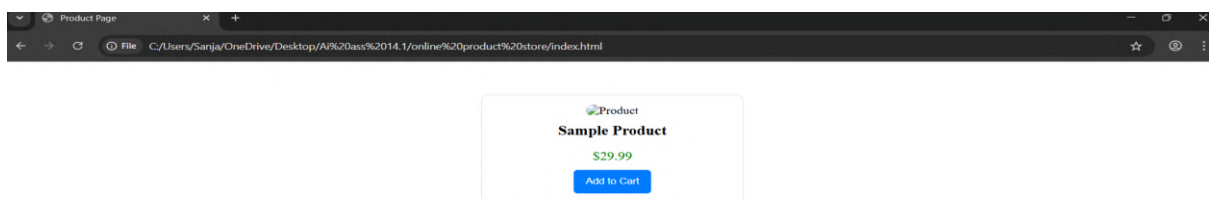

This screenshot shows the continuation of the code in the VS Code editor. The Explorer panel on the left shows the file structure with 'index.html' selected. The main editor area displays the following code:

```
28 .product_title {
29 font-size: 20px;
30 margin: 10px 0;
31 }
32
33 .product_price {
34 color: green;
35 font-size: 18px;
36 margin-bottom: 10px;
37 }
38
39 .product_button {
40 padding: 10px 15px;
41 border: none;
42 background-color: #007bff;
43 color: white;
44 cursor: pointer;
45 border-radius: 5px;
46 transition: background 0.3s;
47 }
48
49 .product_button:hover {
```

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4 <meta charset="UTF-8">
5 <title>Online Product Store</title>
6 <style>
7 @media (max-width: 600px) {
8 }
9 </style>
10 </head>
11 <body>
12
13 <div class="product">
14 
15 <h2 class="product_title">Sample Product</h2>
16 <p class="product_price">$29.99</p>
17 <button class="product_button" onclick="addToCart()">Add to Cart</button>
18 </div>
19
20 <script>
21 function addToCart() {
22   alert("Product added to cart!");
23 }
24 </script>
25
26 </body>
27 </html>
```

Output:

Observation:

The product page is designed using HTML, CSS, and JavaScript with a clean and structured layout.

BEM methodology ensures organized and reusable class naming, and the layout is responsive across devices.

Hover effects and the “Add to Cart” alert improve user interaction, making the page simple and user-friendly.

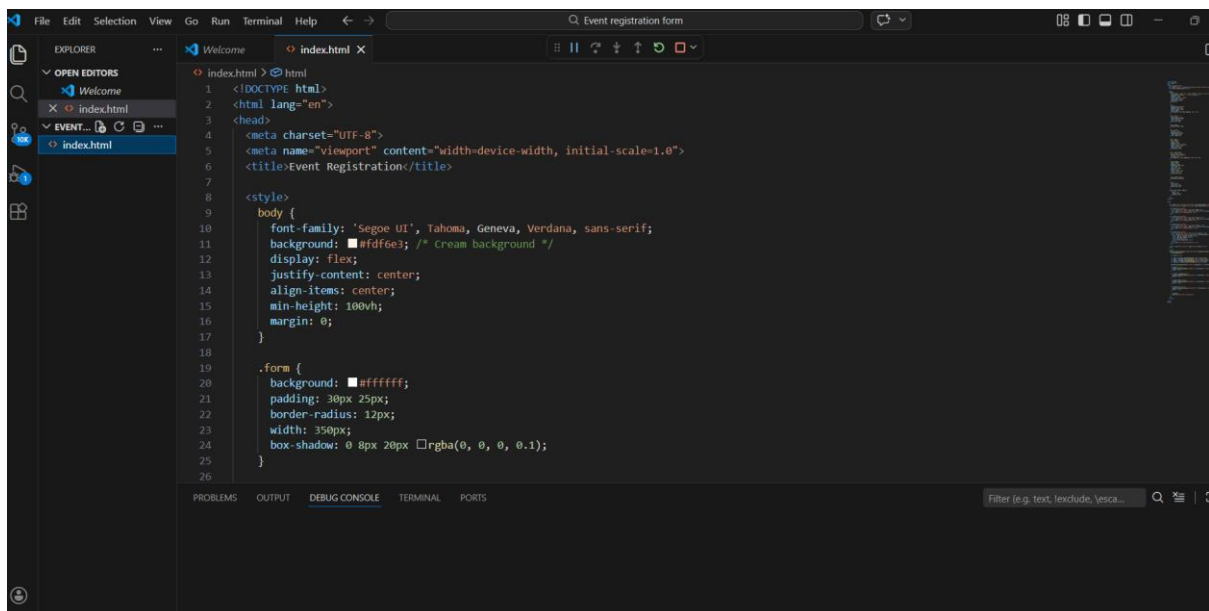

Task3: Event Registration Form

Prompt:

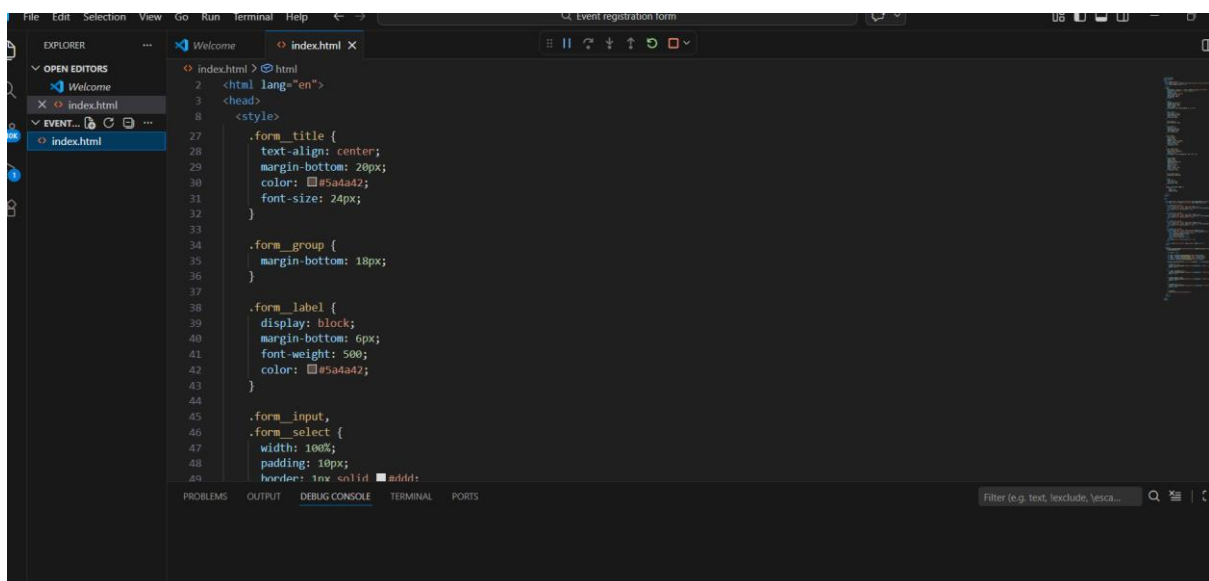

Create an event registration form using HTML, CSS, and JavaScript with fields for name, email, phone, and session selection.

Add JavaScript validation to ensure all inputs are correctly filled before submission.

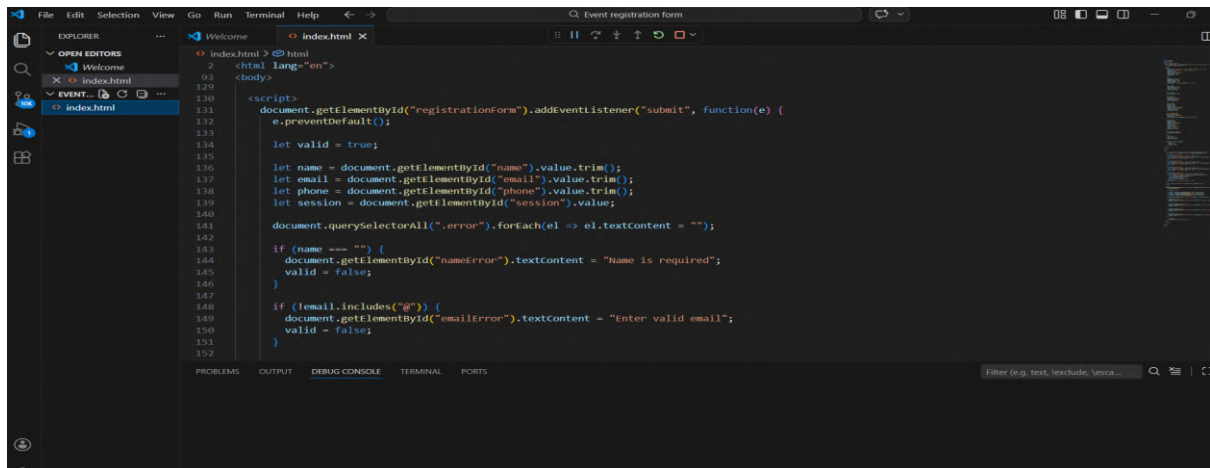

Style the form professionally and include proper labels and ARIA attributes for accessibility.

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6   <title>Event Registration</title>
7
8   <style>
9     body {
10       font-family: 'Segoe UI', Tahoma, Geneva, Verdana, sans-serif;
11       background: #fdf6e3; /* Cream background */
12       display: flex;
13       justify-content: center;
14       align-items: center;
15       min-height: 100vh;
16       margin: 0;
17     }
18
19     .form {
20       background: #ffffff;
21       padding: 30px 25px;
22       border-radius: 12px;
23       width: 350px;
24       box-shadow: 0 8px 20px rgba(0, 0, 0, 0.1);
25     }
26
```

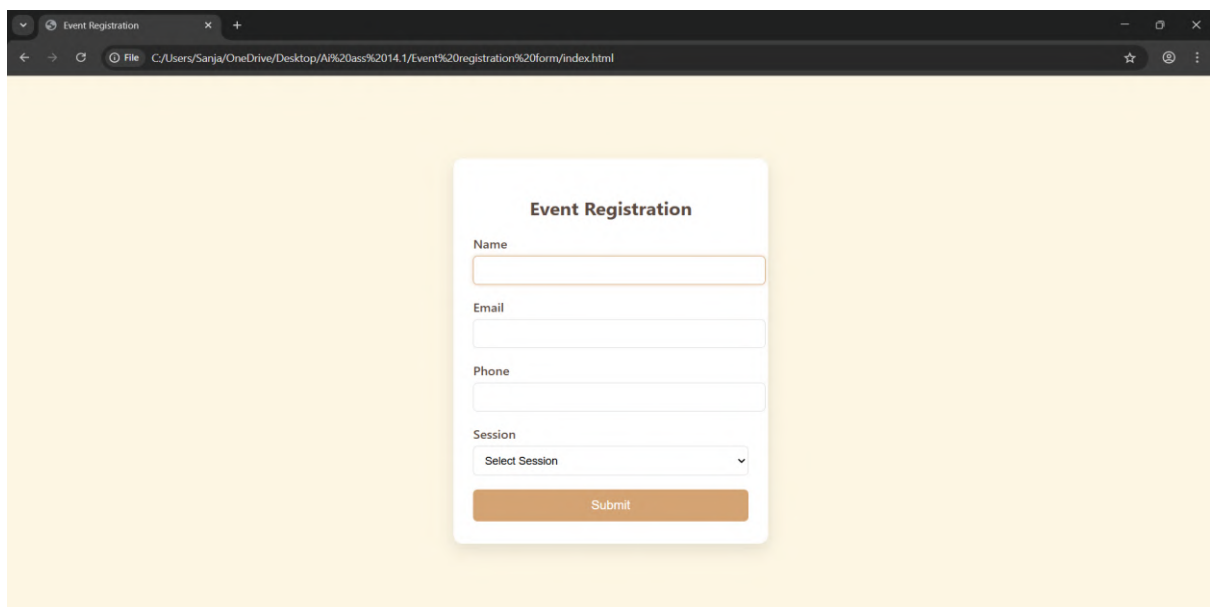

```
27
28   .form_title {
29     text-align: center;
30     margin-bottom: 20px;
31     color: #5a4a42;
32     font-size: 24px;
33   }
34
35   .form_group {
36     margin-bottom: 18px;
37   }
38
39   .form_label {
40     display: block;
41     margin-bottom: 6px;
42     font-weight: 500;
43     color: #5a4a42;
44   }
45
46   .form_input,
47   .form_select {
48     width: 100%;
49     padding: 10px;
50     border: 1px solid #add8e6;
51
```

```
101 <html lang="en">
102 <body>
103
104   <script>
105     document.getElementById("registrationForm").addEventListener("submit", function(e) {
106       e.preventDefault();
107
108       let valid = true;
109
110       let name = document.getElementById("name").value.trim();
111       let email = document.getElementById("email").value.trim();
112       let phone = document.getElementById("phone").value.trim();
113       let session = document.getElementById("session").value;
114
115       document.querySelectorAll(".error").forEach(el => el.textContent = "");
116
117       if (name === "") {
118         document.getElementById("nameError").textContent = "Name is required";
119         valid = false;
120       }
121
122       if (!email.includes("@")) {
123         document.getElementById("emailError").textContent = "Enter valid email";
124         valid = false;
125       }
126
127     });
128   </script>
129 </body>
130 </html>
```

Observation:

The event registration form is built using HTML, CSS, and JavaScript with a clean and professional design.

Form validation ensures correct input, while labels and ARIA attributes improve accessibility.

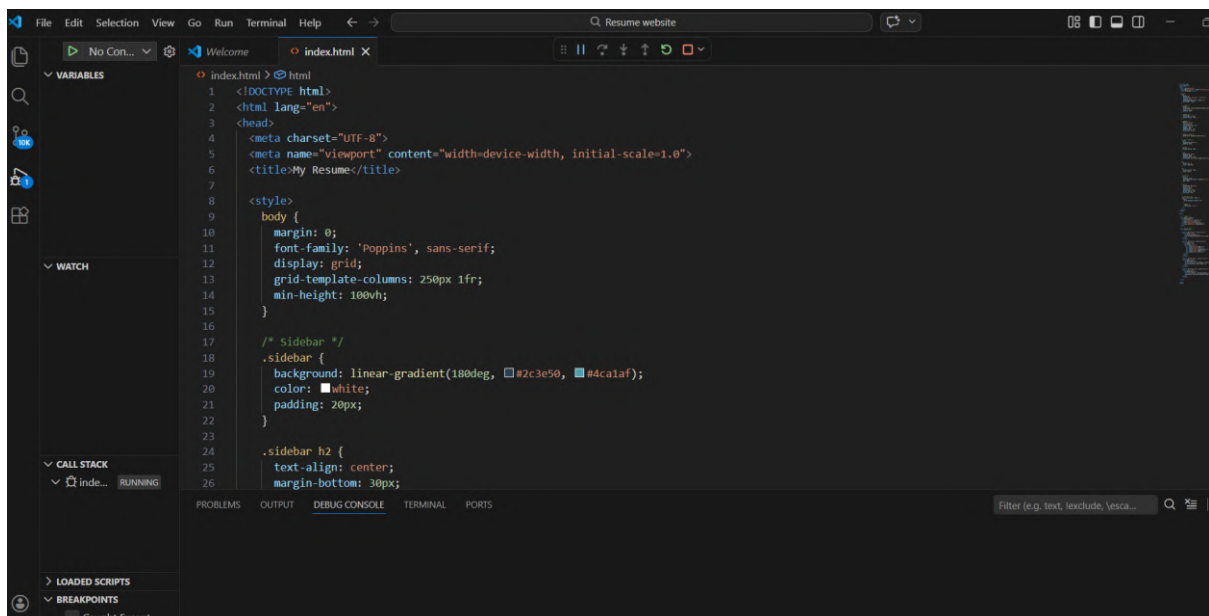

The layout is user-friendly, responsive, and provides a smooth registration experience.

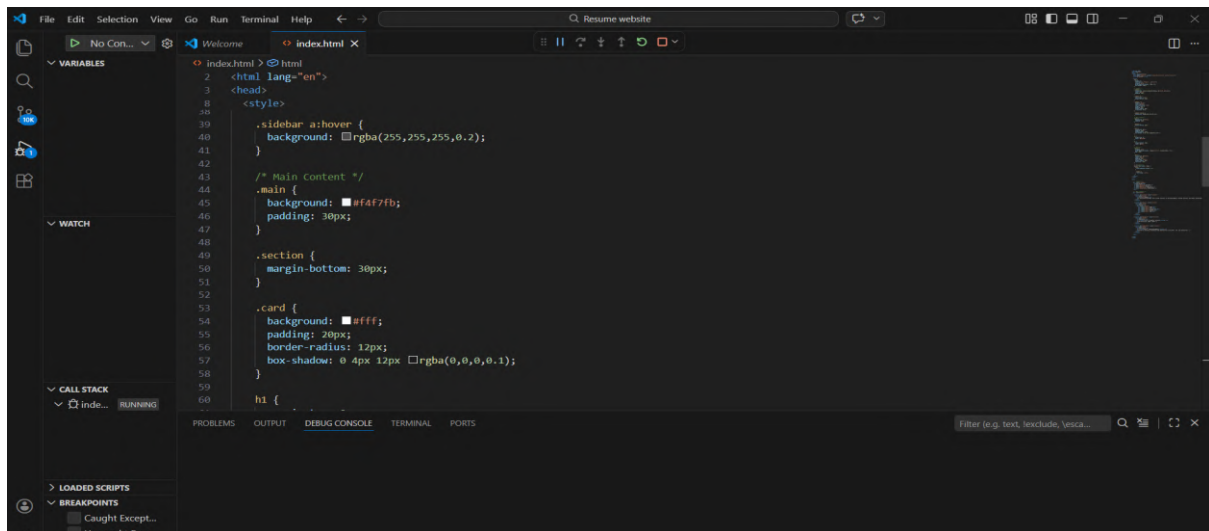

Task4: Resume Website

Prompt:

Create a one-page resume website using HTML, CSS, and JavaScript with sections for Profile, Skills, Education, and Experience.

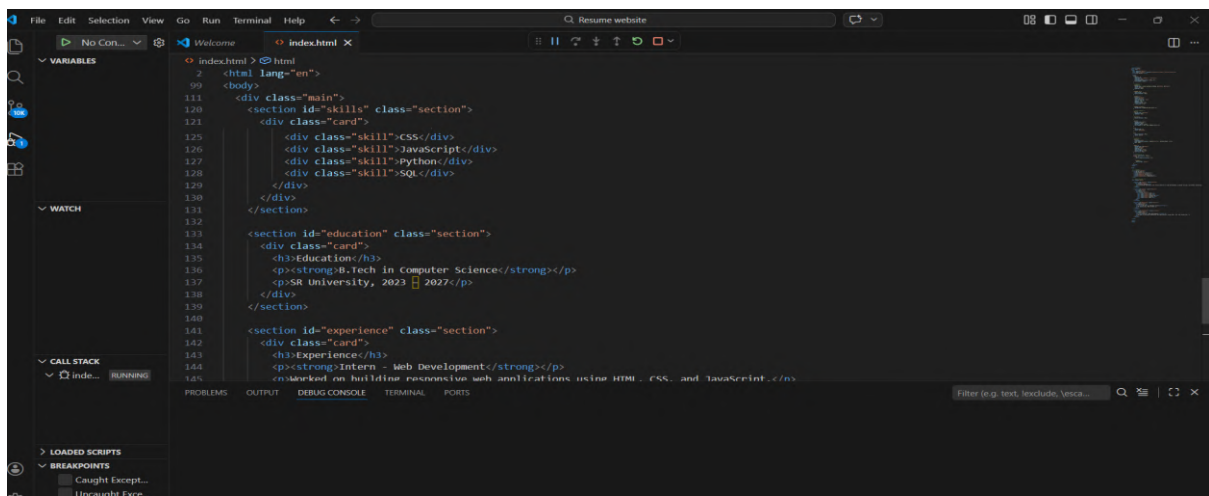

Use CSS Grid for layout, professional typography, and smooth scrolling navigation.

The screenshot shows the VS Code editor with a file named `index.html` open. The code defines CSS styles for a resume website. It includes a sidebar with a hover effect, a main content area with padding, and a section with a margin-bottom. A card is defined with a white background, padding, border-radius, and a box-shadow. The code is as follows:

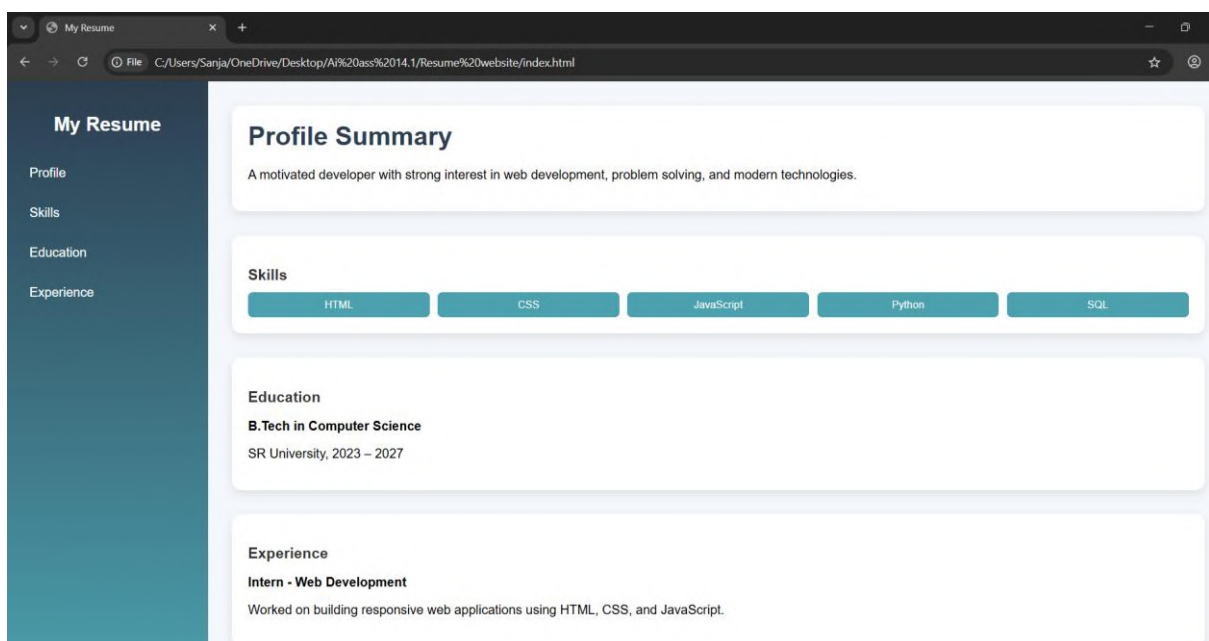

```
1 <html lang="en">
2 <head>
3 <style>
4
5 .sidebar a: hover {
6   background: #255,255,255,0.2;
7 }
8
9 /* Main Content */
10
11 .main {
12   background: #f4f7fb;
13   padding: 30px;
14 }
15
16 .section {
17   margin-bottom: 30px;
18 }
19
20 .card {
21   background: #fff;
22   padding: 20px;
23   border-radius: 12px;
24   box-shadow: 0 4px 12px #000,0,0,0.1;
25 }
26
27 h1 {
28
```

The screenshot shows the VS Code editor with a file named `index.html` open. The code defines the HTML structure for a resume website. It includes a main container with a class of `main`, a skills section with a card containing a list of skills (CSS, JavaScript, Python, SQL), an education section with a card containing the text `B.Tech in Computer Science` and the years `2023 - 2027`, and an experience section with a card containing the text `Intern - Web Development` and the text `Worked on building responsive web applications using HTML, CSS, and JavaScript.` The code is as follows:

```
1 <html lang="en">
2 <body>
3
4 <div class="main">
5   <section id="skills" class="section">
6     <div class="card">
7       <div class="skill">CSS</div>
8       <div class="skill">JavaScript</div>
9       <div class="skill">Python</div>
10      <div class="skill">SQL</div>
11    </div>
12  </section>
13
14  <section id="education" class="section">
15    <div class="card">
16      <h3>Education</h3>
17      <p><strong>B.Tech in Computer Science</strong></p>
18      <p>SR University, 2023 - 2027</p>
19    </div>
20  </section>
21
22  <section id="experience" class="section">
23    <div class="card">
24      <h3>Experience</h3>
25      <p><strong>Intern - Web Development</strong></p>
26      <p>Worked on building responsive web applications using HTML, CSS, and JavaScript.</p>
27    </div>
28  </section>
29 </div>
30
```

Output:

Observation:

The resume website uses a clean one-page layout with well-structured sections and professional typography.

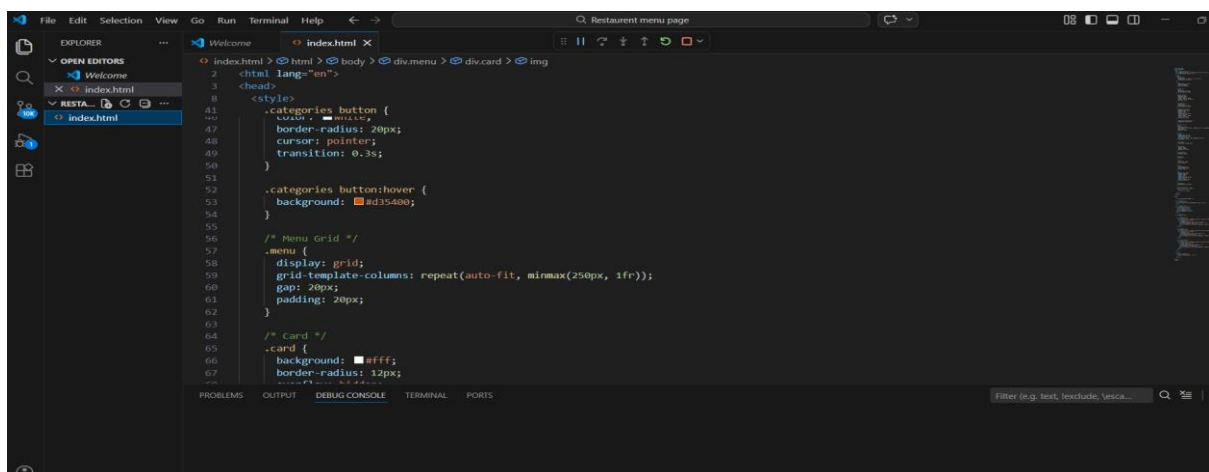

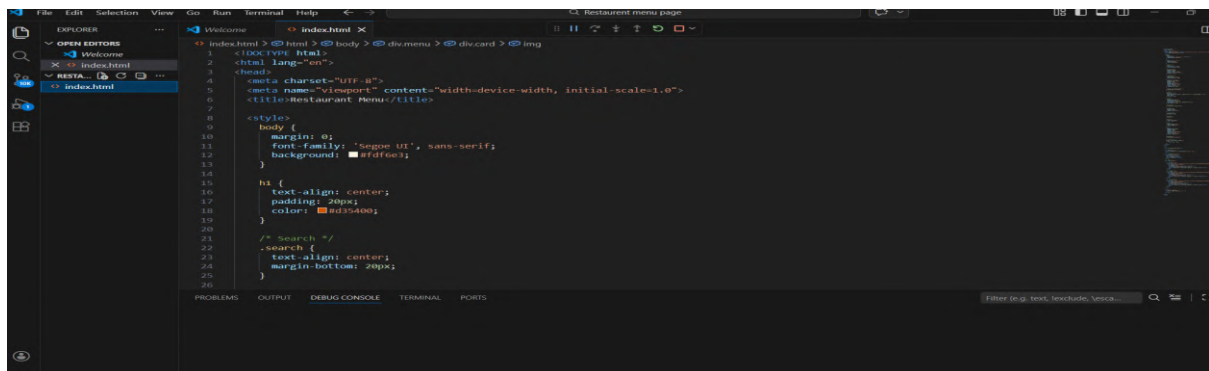

CSS Grid and smooth scrolling enhance responsiveness, alignment, and overall user experience.

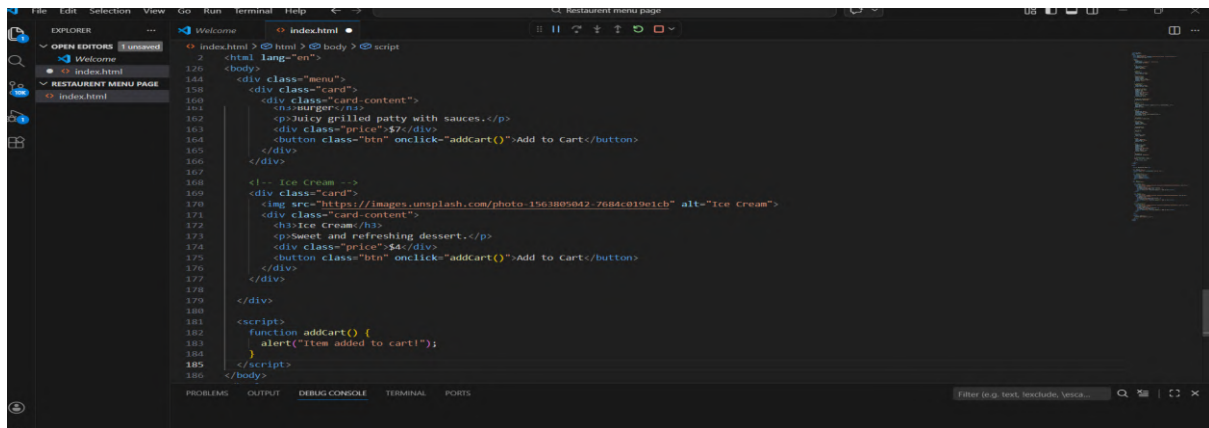

Task5: Restaurant Menu Page

Prompt:

Design a restaurant menu page using HTML and CSS displaying food name, description, and price in card layout.

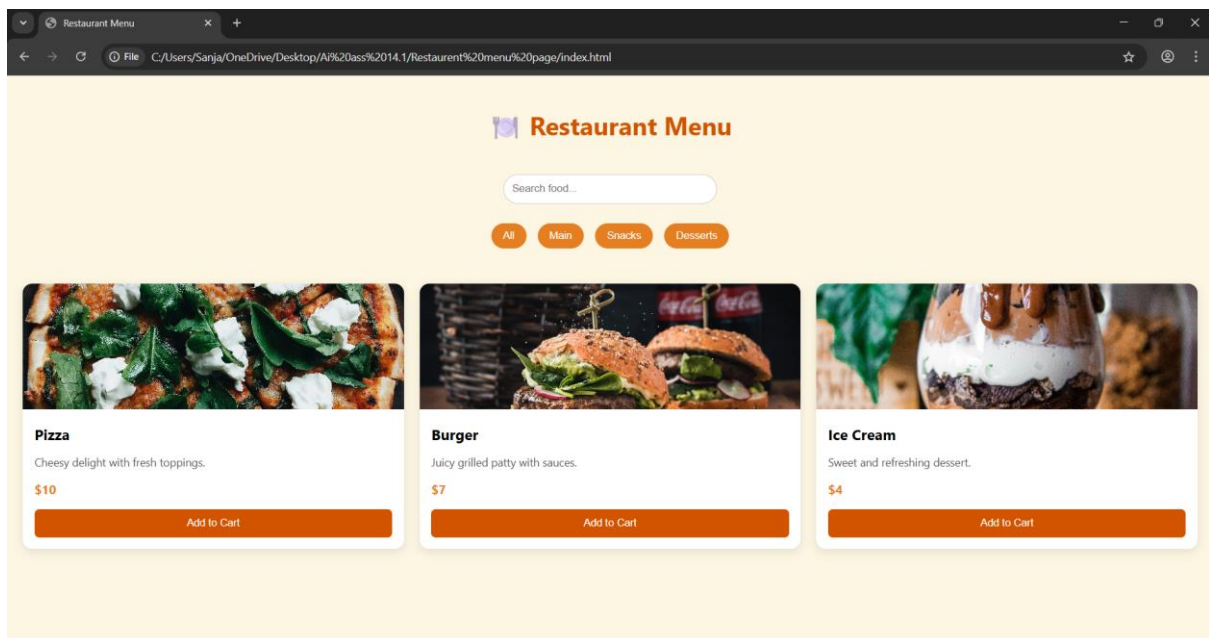

Use a warm food-friendly color palette, responsive design, and add hover effects on menu items.

```
126 <html lang="en">
127 <body>
144 <div class="menu">
158 <div class="card">
160 <div class="card-content">
161 <img src="" alt="Burger" data-bbox="161 161 181 181"/>
162 <p>Juicy grilled patty with sauces.</p>
163 <div class="price">$7</div>
164 <button class="btn" onclick="addCart()">Add to Cart</button>
165 </div>
166 </div>
167
168 <!-- Ice Cream -->
169 <div class="card">
170 <div class="card-content">
171 
172 <h3>Ice Cream</h3>
173 <p>Sweet and refreshing dessert.</p>
174 <div class="price">$4</div>
175 <button class="btn" onclick="addCart()">Add to Cart</button>
176 </div>
177 </div>
178
179 </div>
180
181 <script>
182 function addCart() {
183   alert("Item added to cart!");
184 }
185 </script>
186 </body>
```

Output:

Observation:

The menu page uses a clean card-based layout with warm colors that enhance food appeal.

Responsive design and hover effects improve user interaction and browsing experience.
