

AI ASS 14.1

Name: B.Sanjana

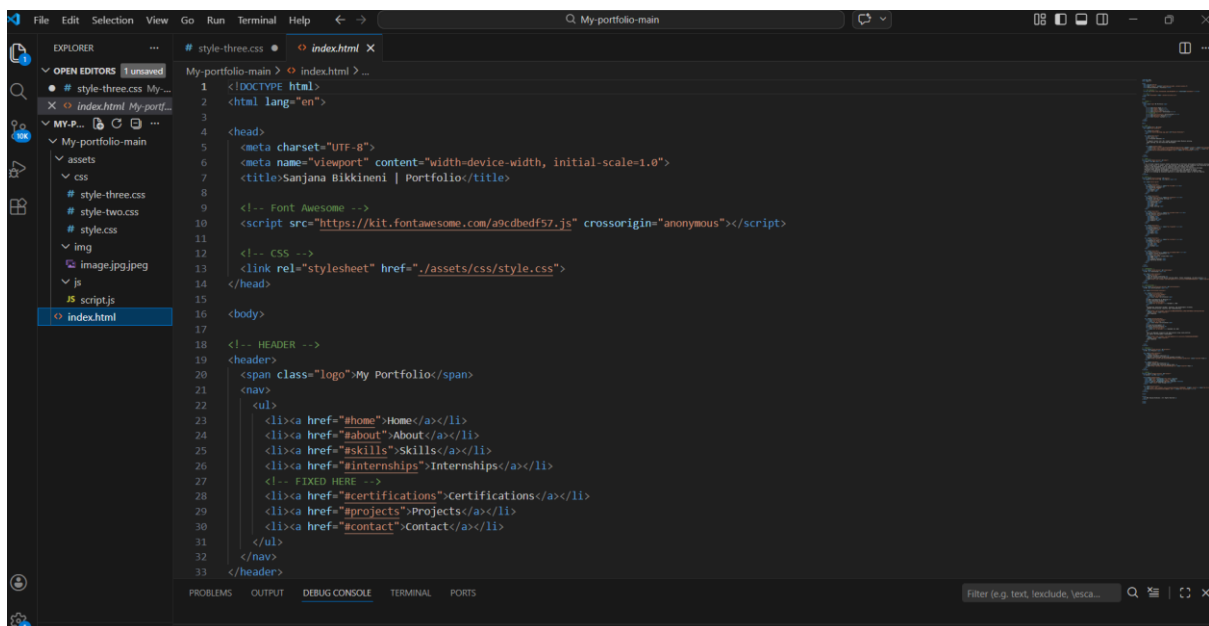

H.T.N0:2303A52306

Batch:43

Task1:portfolio website

Prompt:

Create a modern personal portfolio website using HTML, CSS, and JavaScript with About, Projects, and Contact sections, clean colors, typography, and a responsive Flexbox/Grid layout. Add smooth scrolling navigation to enhance user experience with a simple and visually appealing design.

The screenshot shows a VS Code editor with a project named 'My-portfolio-main'. The Explorer sidebar on the left shows the file structure: 'assets' (containing 'css' and 'img' folders), 'js' folder, and 'index.html'. The main editor area displays the content of 'index.html', which is an HTML document. The code includes a DOCTYPE declaration, HTML lang attribute, a head section with meta tags for charset, viewport, and title, and a link to a Font Awesome script. The body section contains a header with a logo and a navigation menu with links to Home, About, Skills, Internships, Certifications, Projects, and Contact. The code is as follows:

```
1 <!DOCTYPE html>
2 <html lang="en">
3
4 <head>
5   <meta charset="UTF-8">
6   <meta name="viewport" content="width=device-width, initial-scale=1.0">
7   <title>Sanjana Bikineni | Portfolio</title>
8
9   <!-- Font Awesome -->
10  <script src="https://kit.fontawesome.com/a9cbedf57.js" crossorigin="anonymous"></script>
11
12  <!-- CSS -->
13  <link rel="stylesheet" href="./assets/css/style.css">
14 </head>
15
16 <body>
17
18 <!-- HEADER -->
19 <header>
20   <span class="logo">My Portfolio</span>
21   <nav>
22     <ul>
23       <li><a href="#home">Home</a></li>
24       <li><a href="#about">About</a></li>
25       <li><a href="#skills">Skills</a></li>
26       <li><a href="#internships">Internships</a></li>
27       <!-- FIXED HERE -->
28       <li><a href="#certifications">Certifications</a></li>
29       <li><a href="#projects">Projects</a></li>
30       <li><a href="#contact">Contact</a></li>
31     </ul>
32   </nav>
33 </header>
```

```
My-portfolio-main > assets > css > # style-two.css > ...
1  @import url("https://fonts.googleapis.com/css2?family=Poppins:wght@100;300;400;500;600;700&display=swap");
2
3  /* Global variables */
4  :root {
5    --primary: #ff5555;
6    --primary-hover: #e43232;
7    --dark-primary: #0000;
8    --dark-secondary: #1e1eb1;
9    --text-color: #c4c4c4;
10 }
11
12 * {
13   margin: 0;
14   padding: 0;
15   box-sizing: border-box;
16 }
17
18 html {
19   scroll-behavior: smooth;
20 }
21
22 body {
23   font-family: "Poppins", sans-serif;
24 }
25
26 /* Header */
```

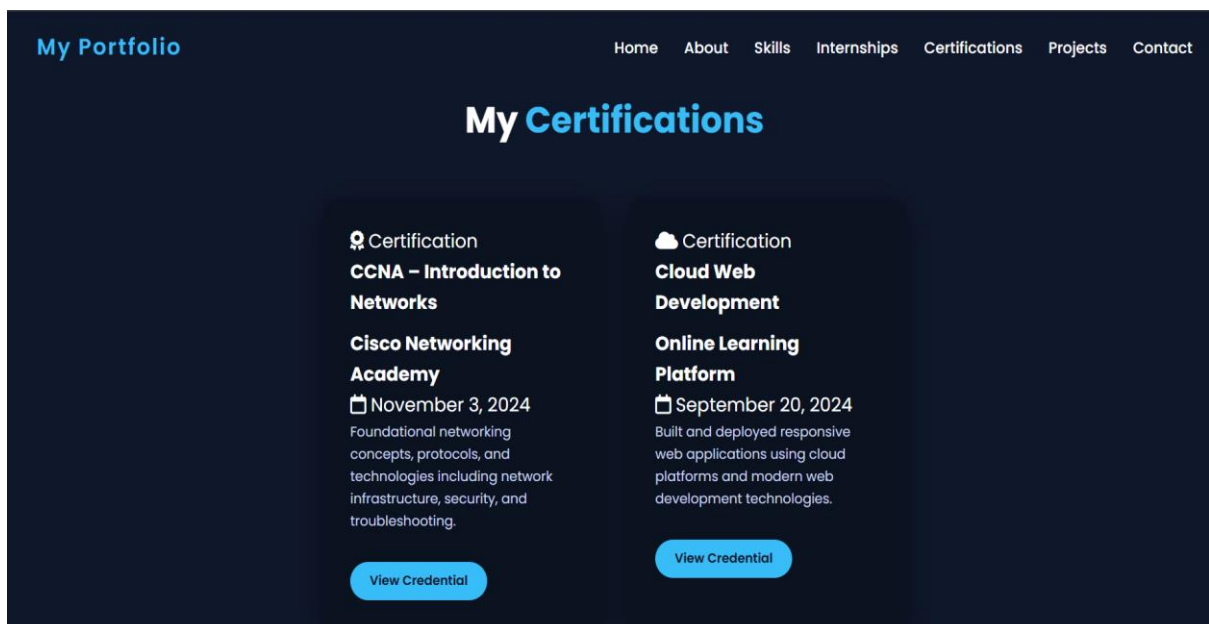

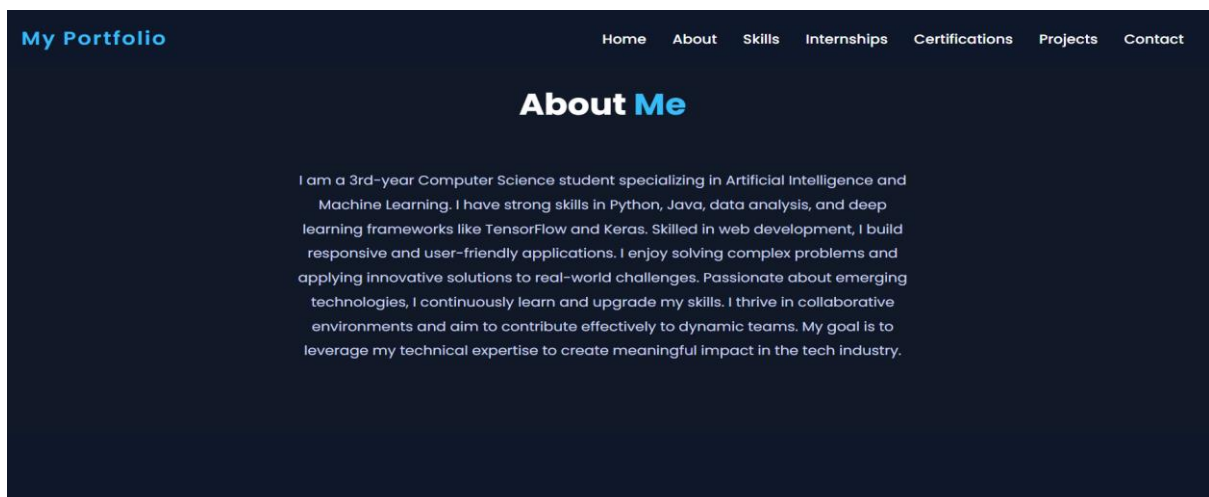

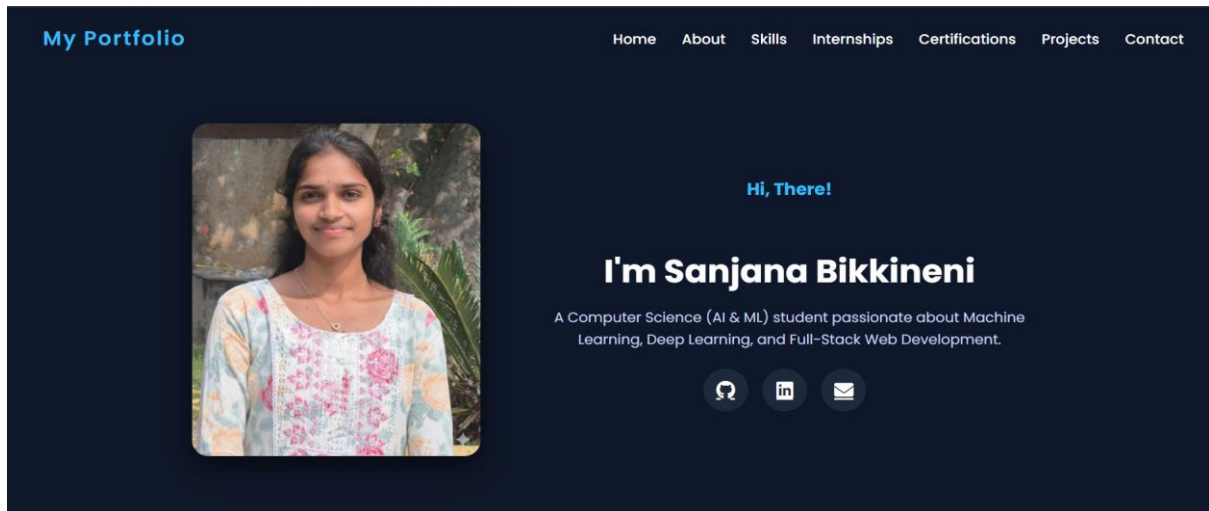

PS C:\Users\Sanja\Downloads\My-portfolio-main>
PS C:\Users\Sanja\Downloads\My-portfolio-main>

```
My-portfolio-main > assets > css > # style-three.css > header ul li a hover
138
139 .btn.btn-primary:hover {
140   background-color: var(--primary-hover);
141   transition: all 0.3s ease 0s;
142 }
143
144 .btn-dark-outlined {
145   background-color: var(--dark-primary);
146   border: 1px solid var(--primary);
147   color: var(--primary);
148   border-radius: 5px;
149   font-weight: 600;
150 }
151
152 .btn-dark-outlined:hover {
153   cursor: pointer;
154   background-color: var(--primary);
155   color: #fff;
156   transition: all 0.3s ease 0s;
157 }
158
159 /* About Section */
160 section.about-section {
161   background-color: var(--dark-secondary);
162   color: #fff;
```

PS C:\Users\Sanja\Downloads\My-portfolio-main>
PS C:\Users\Sanja\Downloads\My-portfolio-main>

```
My-portfolio-main > assets > js > JS scripts.js > ...
1  document.addEventListener("click", function (event) {
2    if (event.target.hasAttribute("data-theme")) {
3      const themeFile = event.target.getAttribute("data-theme");
4      const themeButtons = document.querySelectorAll("[data-theme]");
5      themeButtons.forEach(btn => btn.classList.remove("active-theme"));
6      event.target.classList.add("active-theme");
7      document.getElementById("themeStylesheet").setAttribute("href", themeFile);
8    }
9  });
10
```

Output:

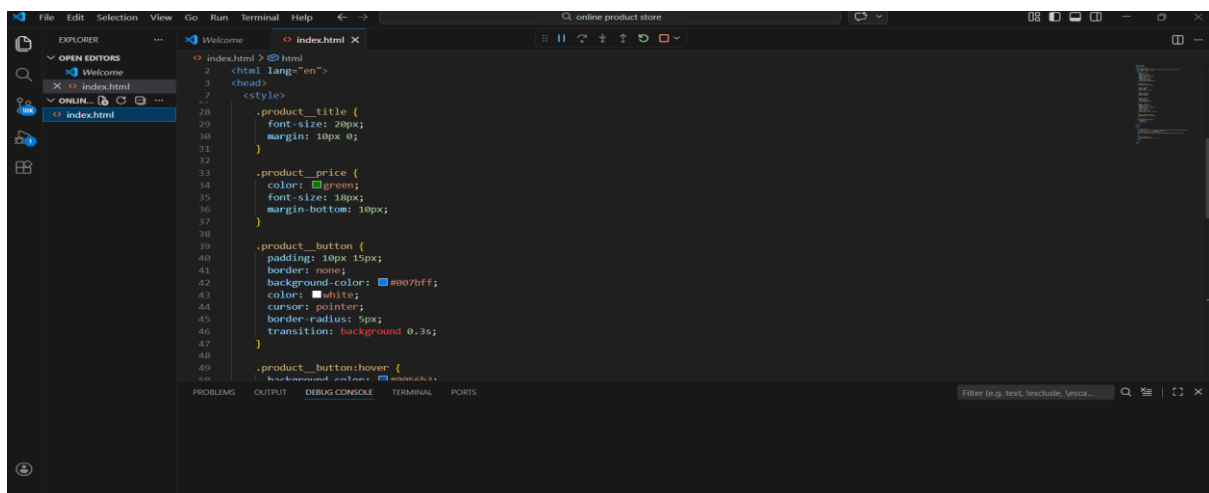

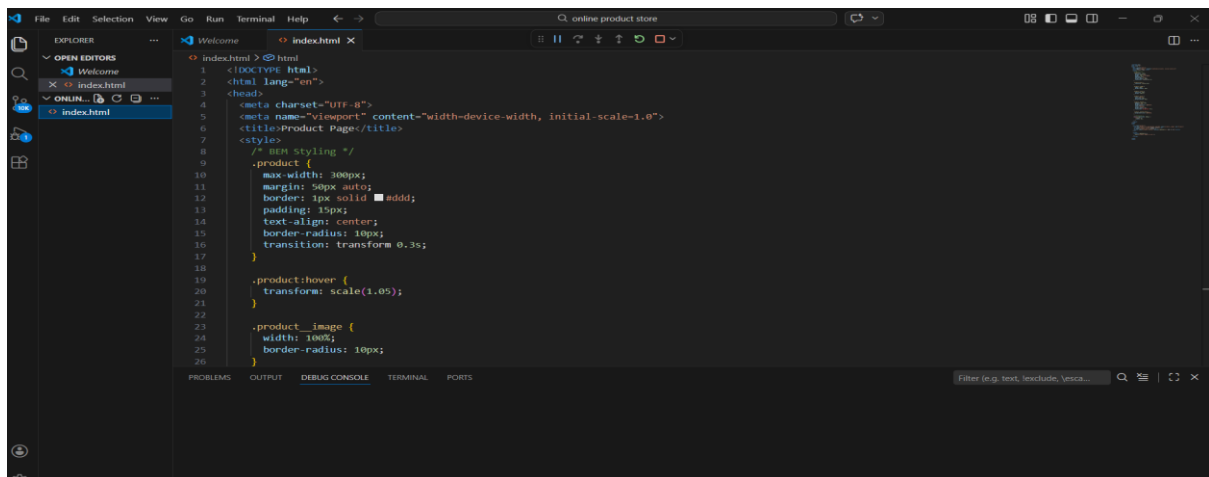

Observation:

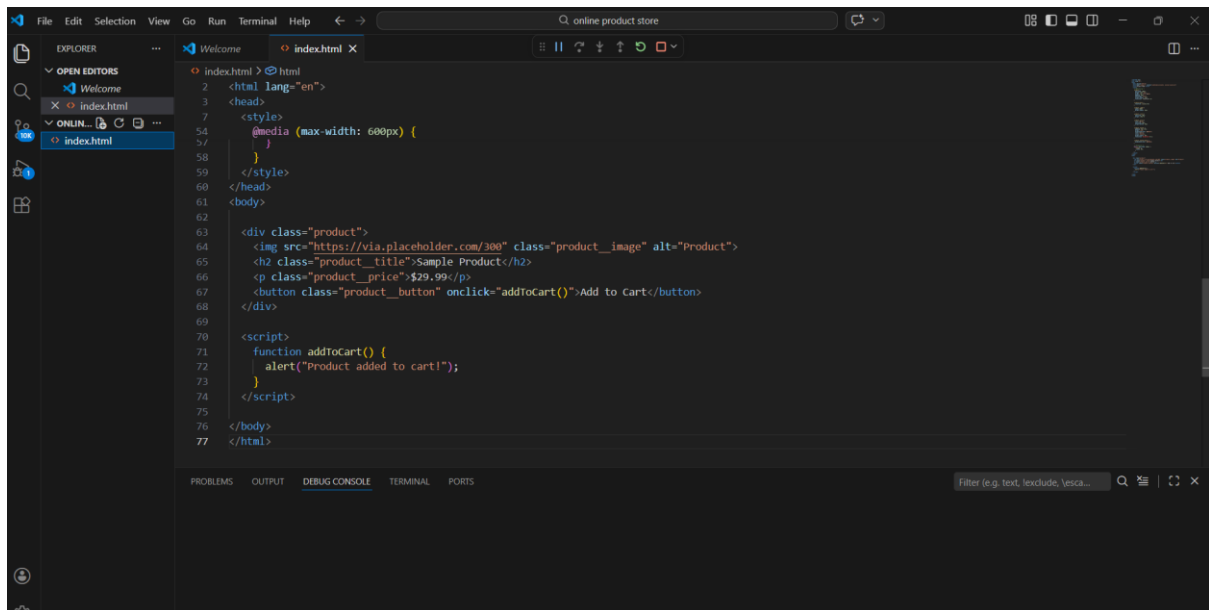

The portfolio website was built using HTML, CSS, and JavaScript with a clean structure, including About, Projects, and Contact sections for easy navigation.

Task2: Online Store Product Page

Prompt

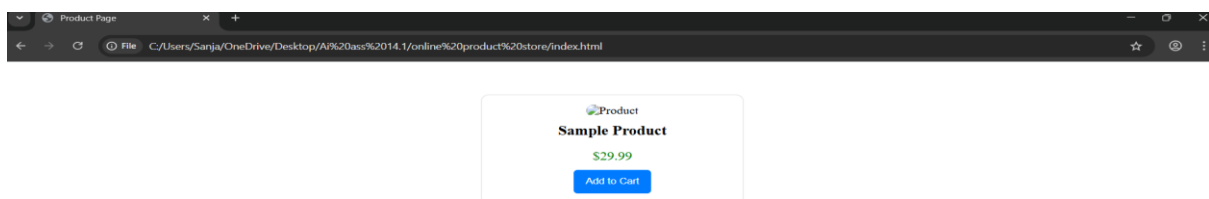

Design a responsive product page with HTML, CSS (BEM), and JavaScript showing product details and an “Add to Cart” alert.

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4 <meta charset="UTF-8">
5 <title>Online Product Store</title>
6 <style>
7 @media (max-width: 600px) {
8   .product {
9     padding: 10px;
10    }
11  }
12 </style>
13 </head>
14 <body>
15 <div class="product">
16   
17   <h2 class="product_title">Sample Product</h2>
18   <p class="product_price">$29.99</p>
19   <button class="product_button" onclick="addToCart()">Add to Cart</button>
20 </div>
21 <script>
22 function addToCart() {
23   alert("Product added to cart!");
24 }
25 </script>
26 </body>
27 </html>
```

Output:

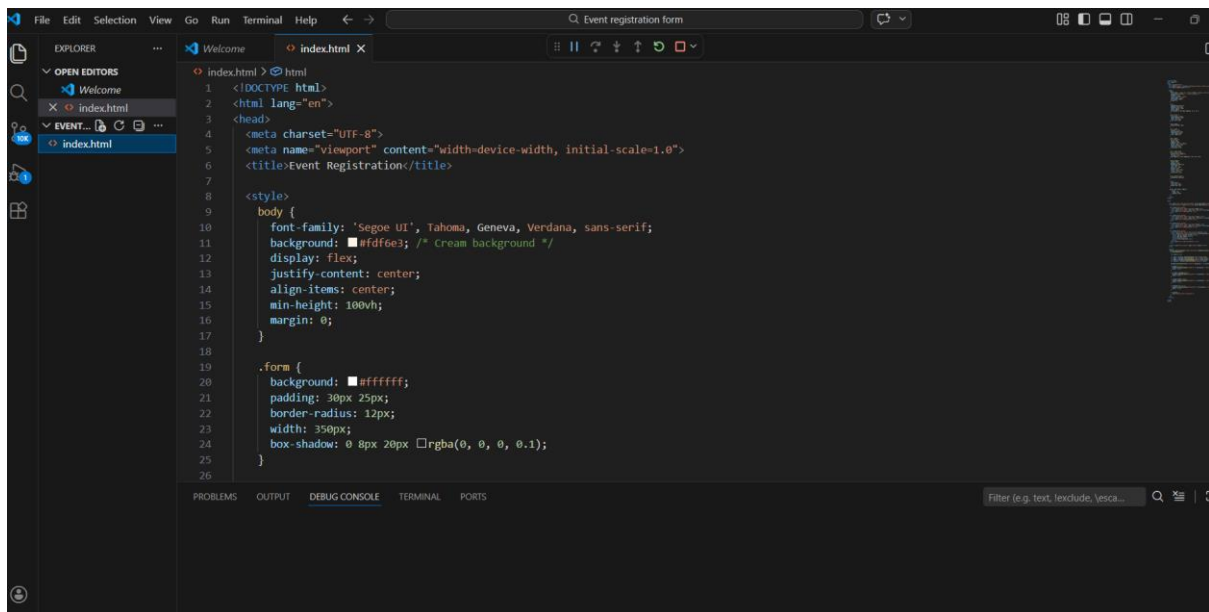

Observation:

The product page is built using HTML, CSS, and JavaScript with a clean, structured, and responsive layout, using BEM for organized and reusable styling.

Task3: Event Registration Form

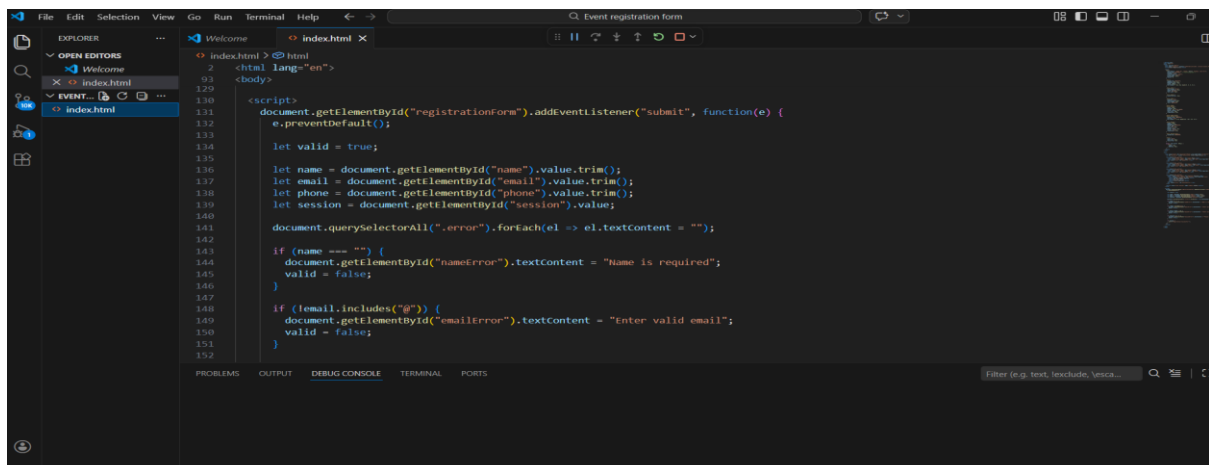

Prompt:

Create a styled, accessible event registration form with HTML, CSS, and JavaScript including validation for required fields before submission.

The screenshot shows the VS Code editor with the 'index.html' file open. The code is as follows:

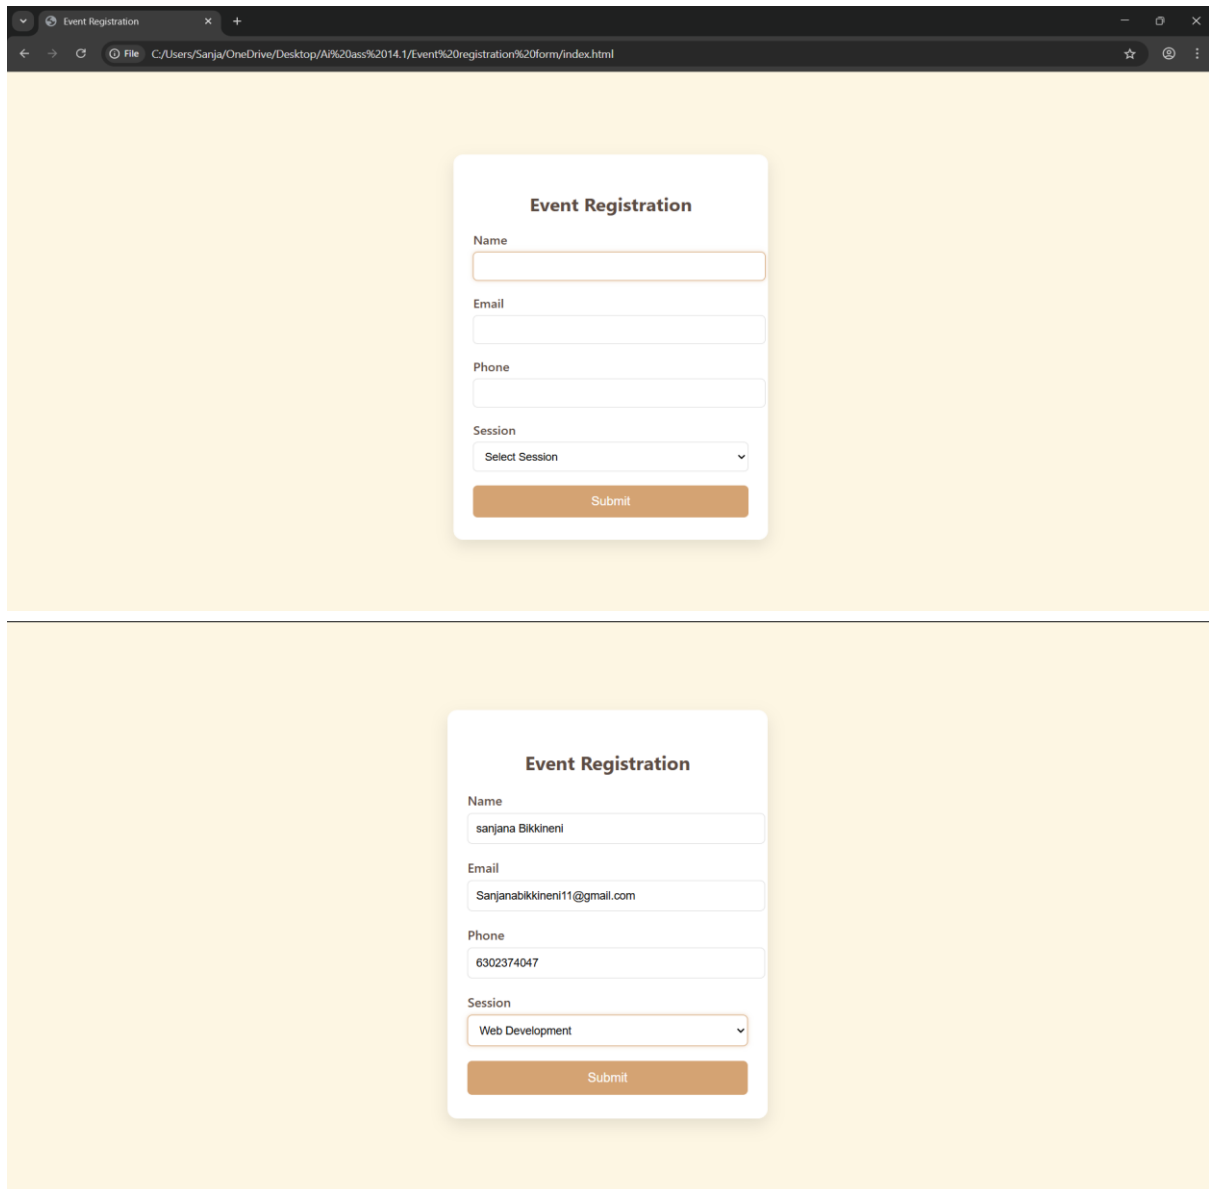

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6   <title>Event Registration</title>
7
8   <style>
9     body {
10       font-family: 'Segoe UI', Tahoma, Geneva, Verdana, sans-serif;
11       background: #fdf6e3; /* Cream background */
12       display: flex;
13       justify-content: center;
14       align-items: center;
15       min-height: 100vh;
16       margin: 0;
17     }
18
19     .form {
20       background: #ffffff;
21       padding: 30px 25px;
22       border-radius: 12px;
23       width: 350px;
24       box-shadow: 0 8px 20px #rgba(0, 0, 0, 0.1);
25     }
26
```

The screenshot shows the VS Code editor with the 'index.html' file open. The code is as follows:

```
131 <script>
132   document.getElementById("registrationForm").addEventListener("submit", function(e) {
133     e.preventDefault();
134
135     let valid = true;
136
137     let name = document.getElementById("name").value.trim();
138     let email = document.getElementById("email").value.trim();
139     let phone = document.getElementById("phone").value.trim();
140     let session = document.getElementById("session").value;
141
142     document.querySelectorAll(".error").forEach(el => el.textContent = "");
143
144     if (name === "") {
145       document.getElementById("nameError").textContent = "Name is required";
146       valid = false;
147     }
148
149     if (!email.includes("@")) {
150       document.getElementById("emailError").textContent = "Enter valid email";
151       valid = false;
152     }
153   });
154
```

Output:

The image displays two screenshots of a web browser showing an "Event Registration" form. The browser's address bar indicates the file path: `C:/Users/Sanja/OneDrive/Desktop/AI%20ass%2014.1/Event%20registration%20form/index.html`.

Top Screenshot (Empty Form):

- Title:** Event Registration
- Name:**
- Email:**
- Phone:**
- Session:**
- Submit:**

Bottom Screenshot (Filled Form):

- Title:** Event Registration
- Name:**
- Email:**
- Phone:**
- Session:**
- Submit:**

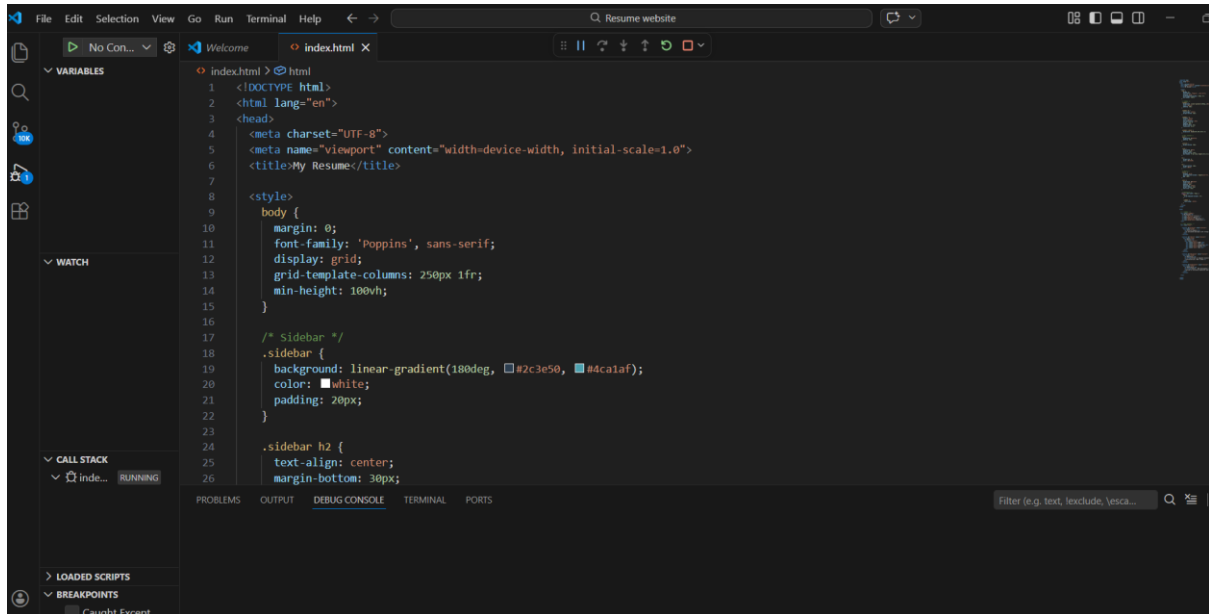

Observation:

The event registration form is developed using HTML, CSS, and JavaScript with a clean, responsive, and professional design. Validation ensures accurate input, while labels and ARIA attributes improve accessibility and user experience.

Task4: Resume Website

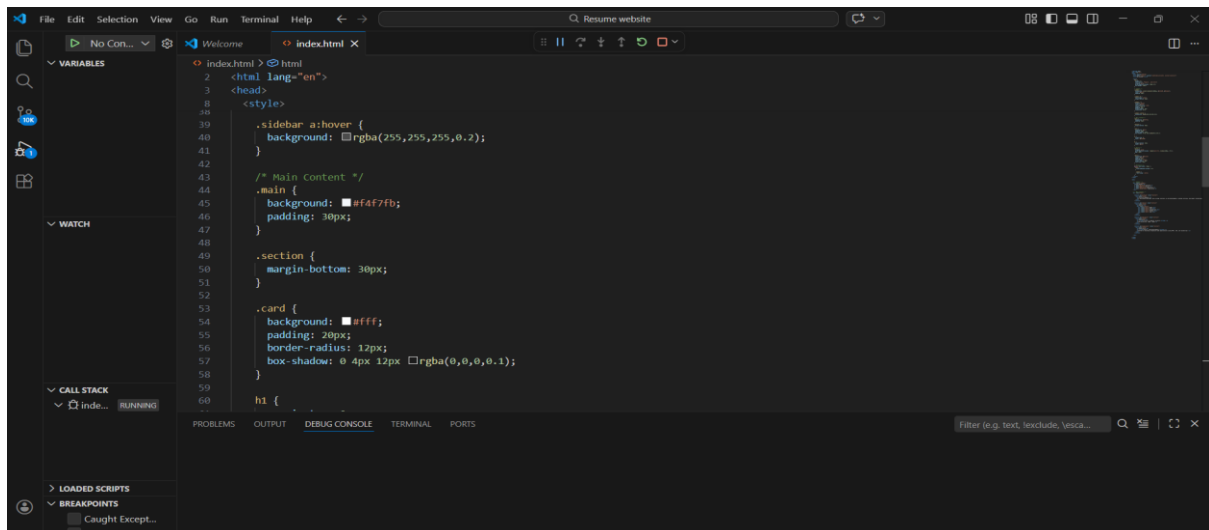

Prompt:

Create a one-page resume website using HTML, CSS, and JavaScript with CSS Grid, smooth scrolling, and sections for Profile, Skills, Education, and Experience.

The screenshot shows the VS Code editor with a file named `index.html` open. The code is as follows:

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6   <title>My Resume</title>
7
8   <style>
9     body {
10       margin: 0;
11       font-family: 'Poppins', sans-serif;
12       display: grid;
13       grid-template-columns: 250px 1fr;
14       min-height: 100vh;
15     }
16
17     /* Sidebar */
18     .sidebar {
19       background: linear-gradient(180deg, #2c3e50, #4ca1af);
20       color: white;
21       padding: 20px;
22     }
23
24     .sidebar h2 {
25       text-align: center;
26       margin-bottom: 30px;
```

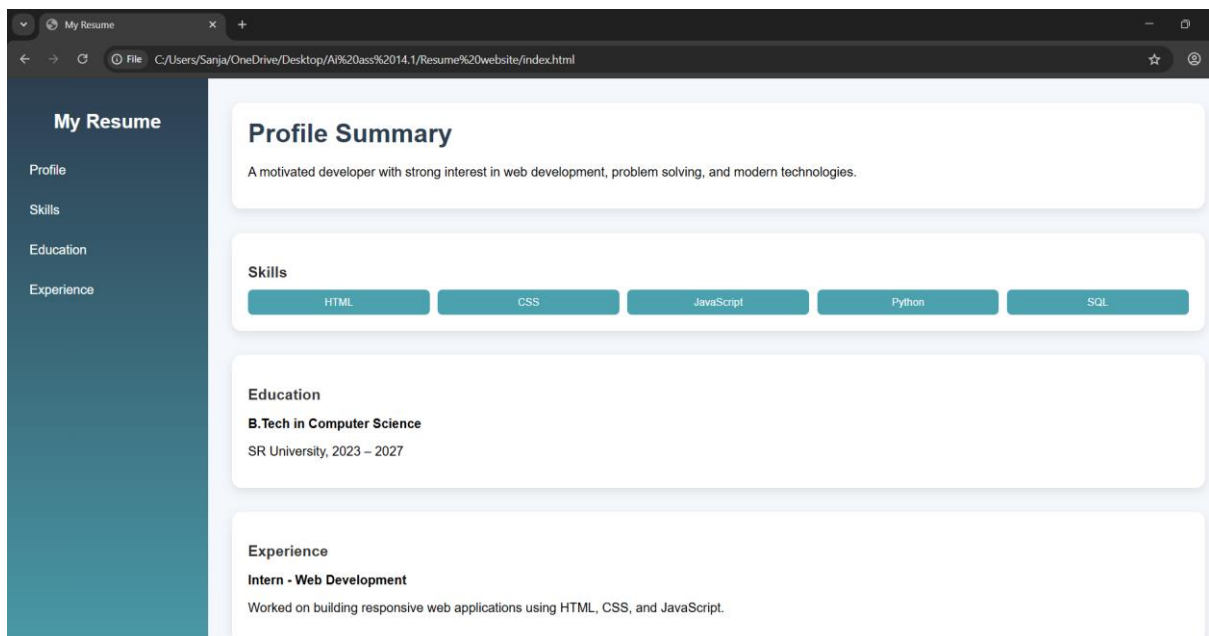

The screenshot shows the continuation of the CSS code in the `index.html` file:

```
27
28
29     .sidebar a:hover {
30       background: rgba(255,255,255,0.2);
31     }
32
33     /* Main Content */
34     .main {
35       background: #f4f7fb;
36       padding: 30px;
37     }
38
39     .section {
40       margin-bottom: 30px;
41     }
42
43     .card {
44       background: #fff;
45       padding: 30px;
46       border-radius: 12px;
47       box-shadow: 0 4px 12px rgba(0,0,0,0.1);
48     }
49
50     h1 {
```

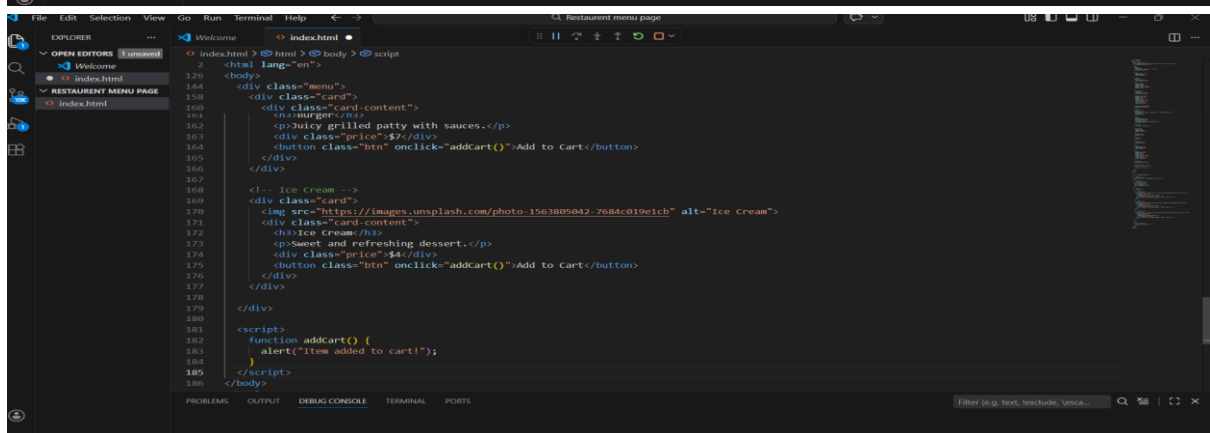

```
111 <div class="main">
120 <section id="skills" class="section">
121 <div class="card">
125 <div class="skill">CSS</div>
126 <div class="skill">JavaScript</div>
127 <div class="skill">Python</div>
128 <div class="skill">SQL</div>
129 </div>
130 </section>
131
132 <section id="education" class="section">
133 <div class="card">
135 <h3>Education</h3>
136 <p><strong>B.Tech in Computer Science</strong></p>
137 <p>SR University, 2023 – 2027</p>
138 </div>
139 </section>
140
141 <section id="experience" class="section">
142 <div class="card">
143 <h3>Experience</h3>
144 <p><strong>Intern - Web Development</strong></p>
145 <p>Worked on building responsive web applications using HTML, CSS, and JavaScript.</p>
146 </div>
147 </section>
148 </div>
149 </body>
150 </html>
```

Output:

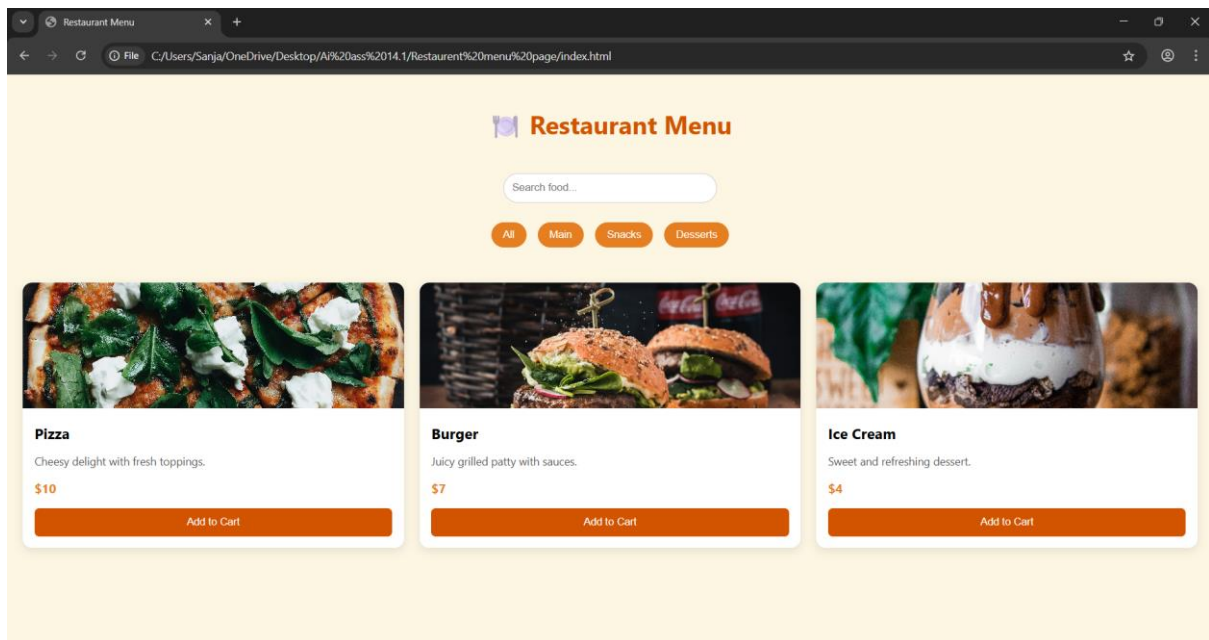

Observation:

The resume website uses a clean one-page layout with well-structured sections and professional typography. CSS Grid and smooth scrolling enhance responsiveness, alignment, and overall user experience.

Output:

Observation:

The menu page uses a clean card-based layout with warm colors that enhance food appeal.

Responsive design and hover effects improve user interaction and browsing experience.
